Section I:

Accessing the NLL

Naval Logistics Library Homepage:
www.nll.navsup.navy.mil

In order to access the Government side of the NLL, the user must have a valid Username and Password. Click here to request an account.

Naval Logistics Library
Password Registration Form

Please complete the form below. The information you submit will be processed usually within 24-48hrs. A NAVSUP Representative will notify you by email. **Users attempting to submit repeat or duplicate submissions will be denied.** Contractors supporting government customers must contact the Help Desk for access information. Fields marked with a ● are required. Please check your Service Code and UIC carefully. **The Service Code and UIC combination (DoDAAC) determine where your publications will be sent.**

● First Name [ ]

● Last Name [ ]

● Email [ ]
Only .mil and .gov email addresses are accepted

● Phone [ ]
Enter your Commercial Telephone number
with AREACODE (717-605-XXXX). (Do not enter a DSN number.)

Fax [ ]

● Service Code [N ▾] + UIC [ ]
Your UIC will be validated
Example: N00104. N = Service Code. 00104 = UIC.

● Command [ ]

● Address [ ]

● City, ST, Zip [ ] [ ] [ ]

Comments [ ]

[Submit] [Reset]

Users attempting to submit repeat or duplicate submissions will be denied.

Forgot Your Password !!

► Users who have forgotten their password, underline not apply again. Simply email the webmaster or contact us using the Feedback Link. We'll be glad to send you a friendly reminder.

► Please include your Name, Phone Number, and Email Address in any email that you send to us. If possible, please include your User ID.

Having your User ID included in the email makes looking up your account faster.

Repeat or Duplicate Submissions are automatically cancelled.

Customer Service: 1-866-817-3130 or 215-697-2626/DSN 442-2...
NLL@navsup.navy.mil

Pr... Security Notice / Disclaimer / Privacy Advisory / DoD W...
Email: webmaster@navsup.navy.mil

The Service Code and UIC you enter here will direct where all your orders go.

Fill in your information then click here to submit your request.

The NLL will display the DoDAAC information for the Service Code and UIC you entered on your password form. **Please carefully review the information.** The NLL cannot make changes to this information or ship publications to an address other than the one listed here. If you entered the wrong Service Code and UIC, contact the NLL Customer Service desk. If you entered the correct Service Code and UIC, but the information is not correct, you must submit a change to the proper authority. Additional information can be found at the DAAS website https://www.daas.dla.mil/daashome/index.htm under "DODAAD".

You should receive an email with your userid and password within 24 hours. If you do not receive the email, contact the NLL Customer Service desk. The most common reasons for not receiving your email are:

1) The email address you provided was incorrect (often a simple typing error).

2) The information for the Service Code and UIC you entered does not match the address information you entered.

Both of these problems can be corrected by the Customer Service desk. Do NOT submit a new password request.

Section II:
Ordering A Publication

Now that you have obtained your password, you may enter the Government side of the NLL.

❶ Step One

The following search criteria can be used to retrieve specific items from the database. Any combination of the search criteria can be provided. **The character "%" (percent sign) can be used as a wildcard when searching any field except the Family Number.** The Family Number entered must be an exact match in order to allow an entire family of publications to be placed in your Shopping Cart. Please remember these queries are not case sensitive. **If you add items to your cart, and then close your browser, those items will be removed from your cart.**

Cart is Empty
No Items

Family Number [   ]

Title [   ]

Pub Number [   ]

Stock Number [   ] [Search Now] [Reset]

All search fields will now return only exact matches unless the wildcard is used. The wildcard is % (percent sign). For example:

* **Instructions ***
- Click on the field title to view a description of that field.
- The Title, Pub Number, and Stock Number fields will return exact matches unless the wildcard (%) is used. The Family Number field will always return exact matches, the wildcard may not be used. Click here to view samples of wildcard searches.

- NAVSUP P485 - No record will be returned
- NAVSUP P485 VOLUME 1 - One record will be returned
- %SUP P485 VOLUME 1 - One record will be returned
- NAVSUP %485 VOLUME 1 - One record will be returned
- NAVSUP P485% - 3 records, Vols 1, 2, and 3 returned
- %AVSUP P485% - 3 records, Vols 1, 2, and 3 returned

- The fastest and easiest way to find your document is by Stock Number. If you know the Stock Number, simply put value into the Stock Number Field and click the 'Search' button.
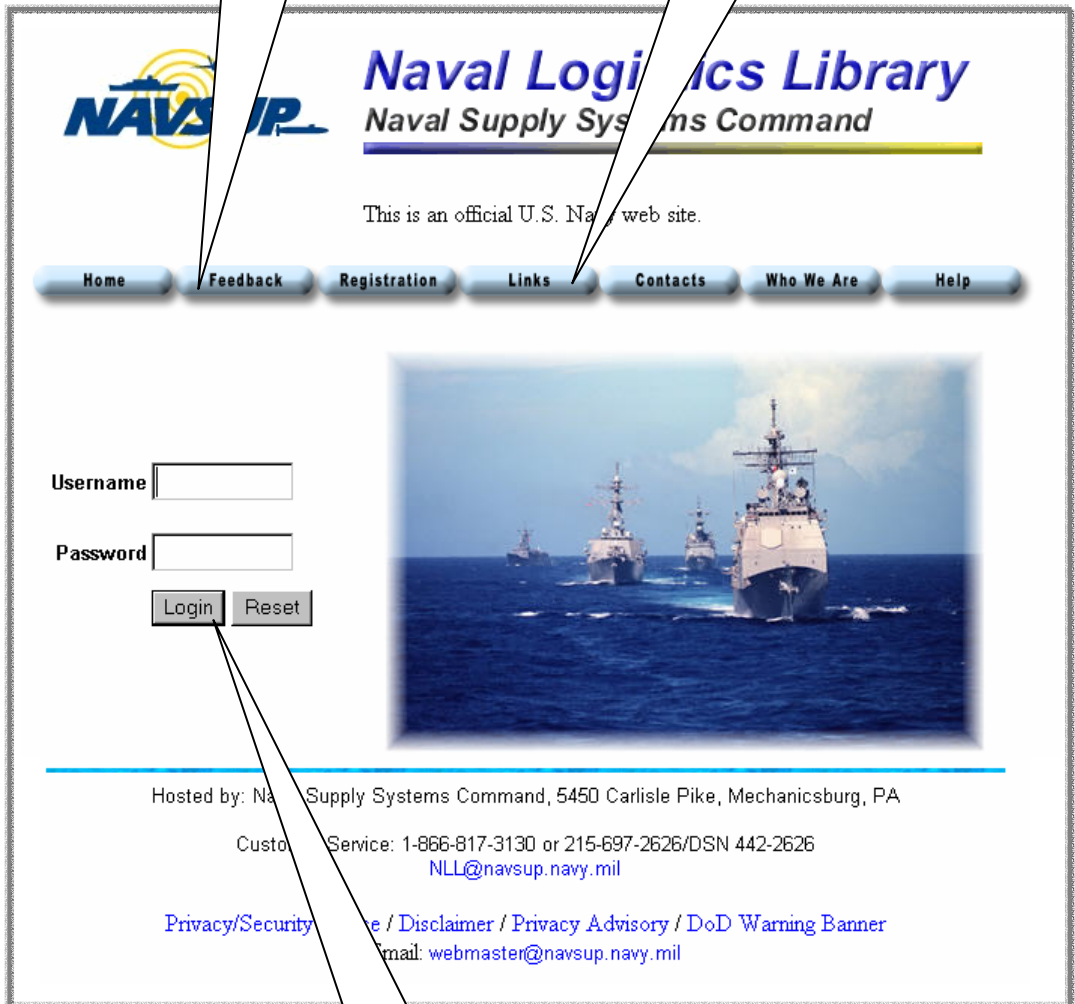

Hosted by: Naval Supply Systems Command, 5450 Carlisle Pike, Mechanicsburg, PA

> **You may search by Family Number, Title, Pub Number, Stock Number, or any combination. Queries are not case sensitive.**

Searching the NLL.

The NLL is designed to return exact matches when searching. The wildcard, a percent sign (%), may be used when searching by Title, Pub Number, and/or Stock Number. The following are examples of wildcard searches:

The wildcard may not be used in the Family Number field.

Family Number	TEST 001%

Section IV: Glossary

- A -

Advice. Advice Codes provide additional information about the requisition but are not normally used for publications and directives. A complete list of advice codes can be found in the NAVSUP P485 Volume II.

Authorized Services/Agencies. This identifies the services and/or agencies which are authorized to order a particular item.

- B -

Backorder. A requisition for an item which is currently not in stock, but is being held until stock becomes available.

Backorders Accepted? This indicates when a situation has occurred which prevents backorders from being accepted. When a Backorder Restriction exists, any requisitions which are submitted when there is no stock available will be canceled.

Basic/Change. A Basic publication is a complete document as originally written, revised or reprinted.   A Change is a document which, in itself, is incomplete but is intended to be inserted into the Basic document.

- C -

Change Number. The sequential number/letter of a change to a basic publication.

Cognizance Symbol. The Cognizance Symbol identifies the Inventory Manager of an item. The cognizance symbol "0I" is used for the Naval Publications and Forms Directorate.

Commercial Price. The selling price of the item. For government services/agencies, publications and directives are issued free of charge.

- D -

Date of Backorder Restriction. The date on which an item was placed in a backorder restriction status.

Date of Freeze. The date on which an item was placed in a freeze status.

Date of Publication. The date on which the initial publication, revision, or reprint was signed by the approving authority.

Date of Shipment. The date on which the material was shipped.

Date of Status. The date on which the status transaction was prepared.

Demand. All requisitions in the NLL are processed as recurring demand items, therefore, the Demand Code will automatically be set to "R".

Distrib. The Distribution Code, when applicable, is used to identify a monitoring activity. When a code is entered in a requisition, the activity identified by the code will receive 100% supply and shipment status. A complete list of Distribution Codes may be found in the NAVSUP P-485, Volume II.

Doc ID. The Document Identifier (DI) is a three digit code which explains why the document is being transmitted. A complete listing may be found in the NAVSUP P-485, Volume II.

A0A	Requisition for a stock numbered item to be shipped within the continental United States
A01	Requisition for a stock numbered item to be shipped overseas
A6B	Requisition denial from the storage site
AC_	Request for cancellation of a requisition
AE_	Supply status
AF_	Requisition follow-up
AK_	Follow-up on request for cancellation of a requisition
AR0	Shipment status
AS_	Shipment status
AT_	Requisition follow-up, treat as a requisition if no record of original requisition

Document Number. see Requisition Number

DoDAAC. The Department of Defense Activity Address Code consists of the 1 digit Service Designator Code followed by the 5 digit Unit Identification Code (UIC).

- E -

Estimated Shipping Date. When available, this will be the date on which it is estimated that the material will be shipped.

- F -

Family Number. The publication number of the Basic Publication in the series.

Foreign Military Sale Price. The selling price of the item for Foreign Military Sales.

Frozen Item? This indicates when a situation has occurred which prevents orders from being processed. When an item is frozen, any requisitions submitted will be held until the freeze is removed.

Fund. The Fund Code is a two digit code identifying the account to be charged for the requisition. A Fund Code is not required for free issue publications and directives.

Hull Type. When applicable, this will indicate the type of hull which the publication/directive pertains to.

- J -

Julian. The Julian date is a three digit number identifying the sequential number of the day within the year. In requisitions, the Julian date is preceded by the last digit of the year (see Section V).

- M -

M&S. The Media & Status Code identifies who will receive status, the type of status they will receive, and how they will receive it. The following chart shows the M&S codes used in requisitioning:

	Status will be sent to the:			
Type of status How status will be received	Requisitioner as indicated in positions 30-35	Supplementary Addressee as indicated in positions 45-50	Requisitioner <u>and</u> the Supplementary Addressee	Monitoring Activity as indicated in position 54
All status sent by:				
GSA Form 10050	A	H	G	n/a
Defense Messaging Service	S	U	F	0
Mailed Document	T	V	n/a	n/a
All supply status sent by:				
Defense Messaging Service	B	D	n/a	n/a
Mailed Document	C	E	n/a	n/a
All exception status sent by:				
GSA Form 10050	J	Q	P	n/a
Defense Messaging Service	K	M	Z	Y
Mailed Document	L	N	n/a	n/a
Exception supply status sent by:				
Defense Messaging Service	2	4	n/a	n/a
Mailed Document	3	5	n/a	n/a

Manufacturer Code. When applicable, this will indicate the manufacturer of the equipment which the publication/directive pertains to.

Max Order Quantity. The maximum quantity of a publication which may be ordered within a 90 day period.

Media Type. The format which the item is produced as, i.e. paper, CD-ROM.

Mode of Shipment. The method by which the material is being shipped. A complete listing may be found in the NAVSUP P-485, Volume II.

     5   surface small package carrier
     G   surface parcel post
     H   air parcel post
     J   air small package carrier

Model Number. When applicable, this will indicate the model number which the publication/directive pertains to.

Modified. This indicates when something in the original requisition has been changed, i.e. stock number, unit of issue.

- N -

New Item? Yes will appear when the item is new and not yet available for distribution.

Number of Pages. The actual number of pages in the publication. Pages which are printed on both sides count as 2 pages, fold-outs count as 6 pages.

- P -

Port of Embarkation (POE). For overseas shipments only, this identifies the port at which the shipment will begin.

Priority. The Priority Designator is determined by combining the activity's assigned Force/Activity Designator (F/AD) and the appropriate Urgency of Need Designator (UND) as shown in the table below. For instance, if you are ordering for a F/AD III activity, and the item is needed on a routine basis, you would enter "13" in the priority field. Additional information can be found in the NAVSUP P485 Volume I.

Force/Activity Designator:	Urgency of Need Designator (UND):		
	A - Unable to Perform Mission	B - Impaired Operational Capability	C - Routine
I	1	4	11
II	2	5	12
III	3	6	13
IV	7	9	14
V	8	10	15

Processing Activity. The Routing Identifier Code (RIC) identifying the activity which will be processing and filling the requisition.

Project. The Project Code is a mandatory entry for all Navy activities. Project Codes identify special projects, operations, exercises and maneuvers. If this field is left blank in an online requisition, "YY9" will be automatically entered, indicating that this is a miscellaneous requirement which is not otherwise classified.

Pub Number. The publication/directive number as assigned by the sponsor.

- Q -

Quantity. The quantity is the number of units being requested/supplied of the item.

Quantity Per Unit of Issue. This identifies how many individual items there are in a unit of issue. For instance, a package may contain 100 individual items.

- R -

RDD. A Required Delivery Date (RDD) will be entered in a requisition only when the Standard Delivery Date (SDD) is not satisfactory. An RDD earlier than the SDD will be entered as the three digit Julian date by which the item is required, and may be used only under one of the following conditions:

    a. The scheduled deployment departure date for a ship or aircraft is such that future replenishment from the current supply source will no longer be practical;

    b. An operational deployment force is scheduled for deployment by a fixed date, which is earlier than the Standard Delivery Date;

    c. An emergency requirement exists for medical and disaster supplies to save life or prevent suffering and disaster.

The RDD field may also be coded to indicate expedited handling (NORS, ANORS, NMCS, ANMCS, PMCS, BROAD ARROW), and to indicate when a delivery later than the SDD is desired. Refer to the NAVSUP P485, Volume I for more information.

Record Type. This indicates whether the item is active or canceled/superceded.

Remarks. Additional information provided by the Sponsor of the publication/directive.

Replaced by Stock Number. When applicable, the new stock number which replaces (supercedes) the item.

Requisition Number. The Service Designator Code, UIC, Julian Date and Serial Number make up the requisition number.

Route ID. The Routing Identifier Code (RIC) is a three-digit code which identifies an address. A complete listing may be found in the NAVSUP P-485, Volume II.

    AN5   DLA Warehouse, PA
    NFZ   Naval Logistics Library (NLL)
    SAF   Defense Automated Printing Service (DAPS)

- S -

Security Classification. This indicates the level of security clearance required to order the item.

Serial. The originator of a requisition will assign a four digit Serial Number. The Serial Number may be alphabetic or numeric (alphas "I" and "O" are prohibited) but may never be duplicated on the same day.

Service. The Service Designator Code identifies a service or element of a service. The following are the codes used in position 30 of a requisition:

- A, B, C, W = Army (see NAVSUP P485 Vol II for the specific use of each code)
- D, E, F = Air Force (see NAVSUP P485 Vol II for the specific use of each code)
- G = General Services Administration (GSA)
- H = Other DOD Activities (see NAVSUP P485 Vol II for the specific use of each code)
- K = Marine Corps FMS and MAP Grant Aid
- L = Marine Corps Contractors
- M = Marine Corps
- N = Navy Ashore Activities (may be used by fleet operating forces when specifically designated)
- P = Navy FMS and MAP Grant Aid
- Q = Navy Contractors
- R = Navy Pacific Fleet Operating Units
- S, T, U = Defense Logistics Agency (DLA) (see NAVSUP P485 Vol II for the specific use of each code)
- V = Navy Atlantic Fleet Operating Forces
- Z = Coast Guard

Ship Type. When applicable, this will indicate the type of ship which the publication/directive pertains to.

Shipment Hold Code. The Shipment Hold Code identifies the reason for holding cargo at the shipping activity after it has been made ready for shipment.

Signal. The Signal Code identifies which activity the material will be shipped to, and which activity the material will be billed to. The following Signal Codes are used for on-line requisitioning:

Code	Item will be shipped to:	Item will be billed to:
A	Requisitioner in positions 30-35	Requisitioner in positions 30-35
B	Requisitioner in positions 30-35	Supp Address in positions 45-50
C	Requisitioner in positions 30-35	Fund Code in positions 52-53
D	Requisitioner in positions 30-35	No billing required
J	Supp Address in positions 45-50	Requisitioner in positions 30-35
K	Supp Address in positions 45-50	Supp Address in positions 45-50
L	Supp Address in positions 45-50	Fund Code in positions 52-53
M	Supp Address in positions 45-50	No billing required

Special Material Identification Code. Not used for publications and directives.

Sponsor. The owner and manager of the publication/directive.

Status Code. Status Codes provide information concerning the action being taken on the requisition. Below are some common status codes which may be found in the NLL. For a complete listing, refer to the NAVSUP P-485, Volume II.

- B2   Requisition cannot be modified as requested
- B8   Cannot accomplish cancellation as requested
- BA   Being processed for release and shipment
- BB   Backordered
- BD   Delayed awaiting Sponsor Approval OR delayed due to Freeze on Stock Number
- BF   No record of requisition contained in your follow-up or cancellation request
- BG   Stock number and/or unit of issue have been changed
- BK   Requisition has been modified as requested
- BQ   Canceled due to request from Customer, Sponsor, or other authorized activity OR requisition exceeds the maximum order quantity for the 90 day period
- BR   Cancellation authorized in response to an MOV
- BS   Canceled, no response to MOV request
- CD   Canceled, invalid julian date or serial number in the requisition number field
- CG   Canceled, invalid stock number
- CJ   Canceled, stock number has been canceled without replacement
- CQ   Canceled, unauthorized requisitioner/ship to supp address OR publication is available only on a website
- CV   Canceled, new item not yet available for issue
- CX   Canceled, invalid requisitioner DoDAAC/supp address DoDAAC and/or invalid signal code
- D8   Canceled, FMS requisition is for a NOFORN pub OR the Sponsor disapproved the requisition
- N5   Canceled, this change to a publication has been superceded
- N9   Excessive quantity, partial quantity being supplied, quantity field indicates quantity being canceled

Status Date. The date on which the status transaction was created.

Status is From. This indicates who is providing the status.

Stock Number. Stock Numbers are assigned to items in order to provide a unique means of identification. An "LP" in the 5th and 6th positions indicates that the item is a publication, an "LD" indicates a directive.

Suffix Code. A suffix code is used when a requisition is being filled in 2 or more shipments.

Supp Address. The first position of the Supplementary Address field must contain a Service Designator Code or a "Y" as follows:

- When the Signal Code indicates that the item will be shipped to, and/or billed to the supplementary addressee (Signal Codes B, J, K, L or M), the appropriate activity's Service Designator Code plus Unit Identification Code will be entered here.

- When the Media & Status Code indicates that status should be sent to the supplementary addressee (M&S Codes D, E, F, G, H, M, N, P, Q, U, V, Z, 4 or 5), the appropriate activity's Service Designator Code plus Unit Identification Code will be entered here.

- If neither of the above apply, this field may be used for internal information such as a division or a stock location. When used for internal information, the letter "Y" must be entered in position 45 to indicate that the information in positions 46-50 is not significant to anyone but the originator.

- T -

Title. The name of the publication/directive as printed on the front cover/page.

Transaction Date. The date on which the transaction was created.

Transportation Control Number. The Transportation Control Number (TCN) is used to control and track the shipment from origin to destination.

- U -

UIC. The Unit Identification Code is a five digit code which identifies a specific activity. Navy UIC's are contained in the Navy Comptroller Manual, Volume II, Chapter 5. The Service Designator Code, plus the Unit Identification Code, make up the DoDAAC (Department of Defense Activity Address Code).

Unit of Issue. This identifies how the item will be dispensed.

Unit Price. The commercial price of a publication or, for FMS, the FMS price.

- W -

Weapons Systems Code. When applicable, this will indicate the code of the weapon systems which the publication/directive pertains to.

- W -

Section V:
